

# OFFSET MANWAY LINEAR BALL TANK **TRAILERS**

## SAFER & STRONGER

Our unique trailer design gives you the functionality you need with added safety and strength. We carry offset manway linear ball tank trailers with up to a 14,000 lb weight capacity. Our trailers are made with strong, heavy-duty construction 8" c-channel frames. In addition, our trailer comes standard with surge brakes on both axles, and a self-closing operator platform, making our trailer one of a kind in terms of safety. Purchase our trailer by itself or with a ball tank already mounted. Fully plumbed trailer options are also available and in high demand.
