* Double compartment septic tanks - plumbing included. IAPMO approved

WATER STORAGE SOLUTIONS

ABOVE-GROUND PLASTIC TANKS

- Long-term outdoor service with UV stabilized materials
- Manufactured with FDA approved resin for potable water
- Comes standard with 2" bolted drain fitting and 1/2" bulkhead float valve fitting
- Weatherproof threaded lids & anti-static surge vents
- Molded-in gallon scale (most tanks)
- Offset fill-wells

SEPTIC & CISTERN TANKS

- Rugged, rotation-molded, one-piece, seamless tanks
- Ribbed construction for superior structural strength
- For underground installations 6" to 36" deep
- Designed for installation below surface, only in areas with no vehicle traffic

HIGH CAPACITY STEEL TANKS

- From 5,000 to 100,000 gallon storage capacities
- Modular construction for sites with limited access
- Fire-safe, with highest UV and corrosion resistance
- For drinking water and fire protection applications
- Higher vol. per sq. ft. than interconnected systems
- Optional rainwater collector
- Special geosynthetic liners
