# HIGH-CAPACITY Water Storage Solutions

## Custom Commercial Tanks

Pioneer commercial tanks offer a heavy-duty configurable water storage solution for even the most demanding projects

Protect your water from within the AQUALINER® Fresh liner, encased inside of the Zincalume® Steel tank body with PIONEER V-LOCK® structural construction.

Pioneer Water Tanks are delivered and built directly at the project site without the use of cranes, which reduces the overall project cost and allows for the most flexibility in adapting to the site's installation requirements.

Pioneer fire-protection water tanks are designed to meet or exceed the NFPA 22 Standards for fire-water storage and come with a complete set of engineer-approved drawings and calculations.

Made of Zincalume® steel that has been proven to withstand fire immersion and resist corrosion, ensuring the safety of your water supply in even the worst emergencies.

Pioneer Water Tanks can be configured for high-wind locales, seismic conditions, and heavy industrial zones with additional accessories available.
